

GF-Jib Arm

The GF-Jib Arm was designed to function as a stable, solid jib specifically addressing the heavier 35mm camera packages.

It offers smooth, vibration free movements without the operator having to compromise the designed shot. The front of the arm is easily telescoped out and locked off at the required working length. The jib's pan and tilt "drag" can be adjusted to suit the individual operators preference.

The GF-Jib Arm fits on a custom designed transport trolley which has proven itself in the field to be an ideal transport and storage solution.

Technical Specifications:

Reach retracted:	139 cm / 4' 6"
Reach extended:	188 cm / 6' 1"
Rear retracted:	42 cm / 1' 4"
Rear extended:	94 cm / 3' 1"
Lift range retracted:	186 cm / 6' 1"
Lift range extended:	256 cm / 8' 4"
Max payload retracted:	60 kg / 132lbs
Max payload extended:	40 kg / 88lbs

Jib mount required:	Euro-adapter / Mitchell
Camera head mount:	Euro-adapter / Mitchell
Weight of Jib :	42kg / 92 lbs
Max counterweight:	120 kg / 264lbs (10 x 12kg)
Tilt angle:	43 degree's
